Subject: FPL rate increase Docket #160021-E1

I cannot add anymore information about why FPL does not need this increase than you already have. But I will say that my situation is like many other retirees in Florida. We live on social security and dwindling savings. There was no cost of living adjustment this year and probably no adjustment next year as well. FPL has very high profits. They should be more concerned about how they spend their money, not just raising rates whenever they get the urge to satisfy there ego or investors.

Thank you
