Subject: FPL Rate Increase - NO!

docket number 160021-E1

Sirs,

They're asking for money to resolve – to get more profit for people that are out – for their shareholders that are out of state. Now we have seniors that cannot afford to buy their medication, and now with this rate increase and everything else, as everyone has spoken about, that will – it's not only a 23 percent, everything that comes with it that they're going to have to pay for, they may have to – they may have to serve – they may have to not eat to be able to pay for their bills. This is a purely a for profit increase at the consumer expense. I didn't see any fuel rebates when fuel costs went way down! They are making big profit on that already!
