Subject: FPL rate increase Docket 160021-E1

Please do not have a rate increase if you are already making a 1.6 billion dollar profit. I always said Capitalism is Great however when it gets too Greedy it will collapse. This is what is happening. My wife and I are 68 years old and have not received cost of living increases in ages. Our Insurance and medications have gone sky high. What do we do? Everyone says COLA has not gone up but we have less and less money to pay bills. Now we have a company that is making plenty of money FPL but wants to go up on my electric rate to give to their stock holders out of state.

We do not have another Electric company that we can go to. What else do we cut in order to have electric in our house and pay the bill on time. Please reconsider and do not go up on our electric FPL.

Sincerely,

Michael Greco
