Subject: Proposed FPL rate hike

Please do not approve the proposed FPL rate hike. It is very hard to make ends meet. I literally did not replace my hot water heater after it broke and I no longer have air conditioning. We just run fans, because I could not afford the cost of electricity to run them. We had to drop cable TV as well because costs to live are just too high. The proposed increase will not help the company with improvements to service, it will only go to line investors' pockets and the company is already set to show a high profit without the rate increase.
