Subject: SAY NO THE FPL RATE INCREASE!

Dear Commissioners

Please put a stop to the money grab by large utilities using this rate hike in Florida. There can be no question that FPL is not in need of a rate increase. What possible justification is there for this ill timed and risky request? They have bumper profits and a monopoly on power production. (And they want more?) Who do you represent any way? Who do you work for? Florida citizens do not want or need this exorbitant new tax as a gift to the utilities.

FPL and other utilities stand squally in the way of solar power in the sunshine state and they want more?

If they want to increase their revenues simply get into the solar business by leasing and installing systems to large commercial end users. They don't need to damage the Florida economy just as we are in the misted of a slow weak recovery. It makes no sense to kill the goose that layer the golden egg. Why damage business with increase costs? Our PSC should lead us into the future not take us backwards with this rate increase. I am a retired voter and I vote every time. We are watching. We will remember in November!
