Subject: Docket # 160021-E1 Florida Power and Light Rate Increase Request

We request the Public Service Commission deny the proposed rate increase for the following reasons:

1. Florida Power and Light (FPL), would be only increasing their profits by about 960 million dollars. There will be no additional services provided.
2. The proposed rate hike would require us to pay an additional 23 percent for electric power.
3. We are retirees on a fixed income, with probable greater health care costs as we age.
4. FPL is the only electricity supplier available, and we as homeowners have no opportunity to select another provider.

We believe this is an unreasonable, and unjustified request and SHOULD BE DENIED.
