

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : Margaret Cannon

Electric Utility Provider : EI802 - Florida Power & Light Company

Zip Code : 34242

Category : Information provided by electric utility provider after the storm

Comments : Information was not available as to when we could expect to have power restored after Irma. I just want to know what the last six years (without storms) of sustainability charges meant to FPL as the power was not sustainable after the storm. We don't need a gas pipeline we need a more resilient, sustainable infrastructure and this appears to be lacking. I do not believe we should have to pay for additional storm charges when this was already in our rates.
