Dear Clerk Florida PSC Clerk,

It is pointless for me to consider solar panels, give or sell excess to the electric company - and then after a hurricane, have no electric for 3 weeks when there is no power in return, leaving me in the dark at nights. The only way for me to have solar is to have battery reserve for my own use.

This leaves me with no other alternative but to use a gas guzzling, noisy portable generator inside the dry protection of the garage where I can run extension cords directly to it.

Thank you for your consideration,
Frank Beitelschies

Sincerely,
Frank Beitelschies
