**Subject:** Docket # 20200226-SU

Central sewers for Cape Haze, etc.

We received less than 30 days notice for this proposed project and strenuously object to serious consideration thereof. There is no data for monthly rates, connection fees, system type, etc. Environmental Utilities LLC has limited experience or finances; their small island water system has had some dissatisfied customers.

The Cape Haze development is one-of-a-kind begun by the Vanderbilts in the 50's and has large lots and beautiful Banyan and oak trees. We would not want it torn up by careless excavation and we believe that Charlotte County should be overseeing any such project as they have in the past. We request this proposal be summarily denied.

Respectfully, Robert Bergman, stakeholder at  
30 Buccaneer Bend  
Placida, Fl. 33946
