Subject: Docket # 20200226-SU

To Whom It May Concern,

I am writing to you as the property owner at 8890 Gulf Street Little Gasparilla Island, which is within the service area contained in the application from Environmental Utilities, LLC [EU] for central sewer.

I object to Environmental Utilities' requests for the bifurcation of the certificate and rate-making proceedings and I object to the granting of a temporary waiver of Rule 25-30.033(1)(p) and (q).

Given the inadequate information regarding the applicant's financial strength and management experience as well as the costs to the stakeholders involved with this project, the applicant's request for a waiver should be denied.

As a stakeholder in the proposed service area, it is important to have all of the relevant information regarding the proposed central sewer, including the proposed rates, connection fees and the type of system intended for installation.

I therefore request that the EU's request for bifurcation and a temporary waiver be denied.

Respectfully,
Susan M Stead
8890 Gulf Street
Little Gasparilla Island
