SECTION 00410 BID

FORM (LUMP SUM)

PART 1 GENERAL

1.1 Description

The following Bid, for the (1) BARRINGTON WWTP LIFT STATION, is hereby made to (2) UTILITIES, INC., hereafter called the Owner. This Bid is submitted by (3) NORTH LAKE ELECTRIC INC.
300-1 RICHEY ROAD
LEESBURG, FL. 34748
352-435-7297

(1) Name of Project as shown in the Invitation for Bids

(2) Owner

(3) Name, address, and telephone number of Bidder

1.2 The Undersigned:

A. Acknowledges receipt of:

1. Project Manual and Drawings identified within the Project Manual.
2. Addenda:

Number	<u>N/A</u>	Dated	<u>5/4/2020</u>
Number	<u>N/A</u>	Dated	<u>5/4/2020</u>
Number	<u>N/A</u>	Dated	<u>5/4/2020</u>
Number	<u>N/A</u>	Dated	<u>5/4/2020</u>

B. Has examined the site and all Bidding Documents and understands that in submitting his Bid, he waives all right to plead any misunderstanding regarding the same.

C. Agrees:

1. To hold this Bid open for 90 calendar days after the bid opening date.
2. To accept the provisions of the Instructions to Bidders regarding disposition of Bid Security.
3. To enter into and execute a contract with the Owner, if awarded on the basis of this Bid, and to furnish a Performance Bond and a Labor and Material Payment Bond in accordance with the Instructions to Bidders.
4. To accomplish the work in accordance with the Contract Documents.

5. To begin work not later than 10 days after the issuance of a Notice to Proceed, unless otherwise provided, and substantially complete the work within **180** calendar days of the date of the Notice to Proceed.

6. To accept the provisions of the Agreement as to liquidated damages in the event of failure to complete the work on time.

1.3 Lump Sum Price

The undersigned will construct this project for the Base Bid Lump Sum Price of \$ FOUR HUNDRED EIGHTY TWO THOUSAND EIGHT HUNDRED FOURTY TWO Dollars (\$ \$482,842).

1.4 Schedule of Values

The Bidder hereby indicates the following total units and total prices which represent all materials, labor, equipment, transportation, performance of all operations relative to construction of each project, overhead, and costs of all kinds and profit to complete the work items in accordance with the Project Manual, plans, and permits. Work for which there is not a listed item below shall be considered incidental to the Contract and no additional compensation will be allowed.

9	Generator w/ ATC (20 KW)	1	LS	\$110,000	\$110,000
10	Electrical and I&C	1	LS	\$26,842	\$26,842
11	D/F force Main (cjs, fittings, valves, etc.)	1	LS	\$35,000	\$35,000
				GRAND TOTAL	\$181,842

1.5 Miscellaneous Requirements and Affirmations

A. Proposals (Bids) must be on the Bid Form.

B. I have attached the following required fully executed forms to this Bid:

1. Bid Security complying with the requirements of the Bidding Documents.
2. Tenant Safety Statement - Section 00430

END OF SECTION

TRENCH SAFETY ACT

Florida Statutes Section 553.60 et seq.

Trench Safety Act" Compliance

1. Bidder acknowledges that the Florida Trench Safety Act, Section 553.60 et. seq., which became effective October 1,1990, shall be in effect during the period of construction of the project. The Bidder by signing and submitting the bid is, in writing, assuring that it will perform any trench excavation in accordance with the applicable trench safety standards.
2. Bidder acknowledges that the cost of compliance is included in the applicable items of the Proposal and in the Grand Total Bid Price.
3. The Bidder is, and Garney and Engineer are not, responsible to review or assess County's safety precautions, programs or costs, or the means, methods, techniques or technique adequacy, reasonableness of cost, sequences or procedures of any safety precaution, program or cost, including but not limited to, compliance with any and all requirements of Florida Statute Section 553.60 et. seq. cited as the ""Trench Safety Act"". Bidder is, and the Garney and Engineer are not, responsible to determine if any safety or safety related standards apply to the project, including, but not limited to, the ""Trench Safety Act"

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

Re: Barrington WWTF Modifications
LUSI Service Area

Dear Bryan:

Kimley-Horn and Associates, Inc. ("Kimley-Horn" or "Consultant") is pleased to submit this letter agreement (the "Agreement") to Utilities Inc., of Florida ("Client") for providing engineering services related to designing a lift station to pump the flows directly into the Barrington WWTF.

Project Understanding

The Barrington wastewater facility is a Mack package plant that was originally designed to receive the flows from the Barrington subdivision through a 4-inch force main. The force main was intended to run to a manually cleaned barscreen and splitter box to be located on top of the flow equalization tank (FEQ). When the facility was constructed, the influent conditions were modified to allow gravity flow into the side of the FEQ with a screen placed inside the tank. The utility is proposing to install a lift station on the wastewater facility site to pump to the facility as originally conceived. This work includes the design of a new package style lift station and force main connecting directly to the existing screening box on top of the structure, a new generator, and the associated piping and electrical work.

Scope of Services

Design – These improvements will be design based on the existing drawings provided by the utility and any necessary site visits to determine relative dimensioning. Plans will be developed on 11x17 sheets to describe the site improvements and specific infrastructure required to complete this project. This includes site layout and piping, lift station plan and details, generator and fuel tank plans, and associated electrical plans. Specifications will be developed on the plan set due to the size of the project. A separate bid form will be developed to solicit construction bids as needed.

No surveying or geotechnical work is included in this scope of services but can be added, if requested.

Permitting – Permitting for this project will include coordination of permits from the FDEP permit and Lake County. The FDEP permit is anticipated to be a minor modification but may be able to be submitted as a general permit. Site plan approval will be applied for through Lake County with building permitting being completed by the selected contractor. Permit fees

are included in this scope of services.

Construction Services – Construction services include shop drawing reviews, limited progress inspection and closeout/startup services. Closeout services include updating the GIS system with the record drawing information.

Schedule

The design and plan development will be completed within 120 days of receiving a notice to proceed. Permitting is anticipated to be an additional 120 days. Construction is estimated at 150 days for a total project time of 13 months.

Fee and Expenses

Kimley-Horn will perform these services for the total lump sum fee of \$47,000 broken down as follows:

Design Services:	\$20,000
Electrical Design Services:	\$11,500
Permitting Services (Incl fees):	\$3,500
Construction Services:	\$12,000

Lump sum fees will be invoiced monthly based upon the overall percentage of services performed. Payment will be due within 25 days of your receipt of the invoice and should include the invoice number and Kimley-Horn project number.

We appreciate the opportunity to provide these services to you. Please contact me if you have any questions.

Very truly yours,
KIMLEY-HORN AND ASSOCIATES, INC.
