CUSTOMER COMMENTS

I Truly don't understand why our water bill must go up. Our water pressure here is AWFULL! you need to actually come to our development and see what it is like. Tangle here and there. You surely as a homeowner would not like to have your water like this, and then get word your bill would be here, what for? you need to correct the problem first before increasing our bill. Surely it's worse when all the Northers are here. you need to actually look at the system in the fall when everyone is present in this Park. As far as the backflow that's ridiculous. Turning Peoples water off when it isn't right. Again you need to come out and check it out in person.
