Subject: Duke Energy Increase

I just want to express my opinion about Duke Energy requesting an increase. Now is not the time for an increase. People are trying to get back to work because of lock down during the pandemic. Please have some compassion for the residents. The bill are high in the summer as it is without another increase. They had a profit of 1.1 billion last year and they want to recoup what they spent during 2020 hurricane season when power was lost. Please say NO to an increase, we who are retired on fixed income and many who without work for over a year can't afford this. Where I live, we have power outages all the time. They shut us down to save power at least once a day for at least 5 minutes. Enough with the greed.
