Dear Commissioner

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. I am on a fixed income and just making ends meet as it is. I've done all I can to lower my usage and now they want to take it back with higher rates. The elected officials need to fight for the people and say enough.

Thank you,

Ronald Lombardi
