Subject: Stop Rubber Stamping FPL Requests!

Dear Commissioner

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against helping struggling Floridians. Putting people over profits should come first.

People are barely getting by as it is. If FPL was just breaking even or making a small percentage of profit, I could understand. Do a little internal belt tightening before coming after the more vulnerable!

Now is not the time to give FPL what it wants; let's keep the public in Public Service Commission!

Thank you,

Randy Whited
