Subject: Stop Rubber Stamping FPL Requests!

Dear Commissioner

Didnt they just get a rate increase? Didnt they ask for one before that to build a nuclear plant that didnt happen, with no reimbursement to customers?
how come my rates keep increasing when if there is a small storm in my area the power still flickers or goes out..This has been hapening for 10 YEARS.
Many are still out out of work, plus
FPL make BILLIONS IN PROFITS, PAYS LITTLE TO NO TAXES AND NOW WANTS AN INCREASE? NO NO NO!!!!

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against helping struggling Floridians. Putting people over profits should come first. a the power either flickers or goes out? Do you know how stressful that is holding your breath EVERYTIME THERE IS A SMALL STORM? Afraid to cook dinner because the power may go out!

Now is not the time to give FPL what it wants; let's keep the public in Public Service Commission!

Thank you,

Gina Caracci
