Subject: Don't Rubber Stamp FPL Requests!!

Dear Commissioner

I'm sure you're well aware that Florida Power & Light is asking for the largest single rate hike in Florida history. They are attempting to do this at a time when we consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something that you, the members of the Public Service Commission, can control.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against helping struggling Floridians. Putting people over profits should come first.

Now is not the time to give FPL what it wants; let's keep the public in Public Service Commission!

Thank you,

William Enslin
