

15 June2021

Florida Public Service Commission  
2540 Shumard Oak Blvd.  
Tallahassee, FL 32399

Reference Docket # 20210015-EI

To the Commissioners,

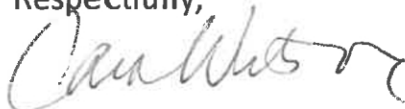

I wish to express my disapproval of any rate hike by Florida Power and Light (FPL). In this day and age, after over a year pandemic which caused great financial stress to many people, and with a new President who insists on ruining our economy, now is NOT the time to raise the profit margin of a monopoly.

If you examine the current trends of profit margins, the averages of successful businesses is around 5%, with some as high as 9%, but many businesses have taken huge losses or gone out of business. So 11% is outrageous.

Florida is a retirement state and many of our friends and relatives here are on fixed income. Property taxes have almost doubled. Gas prices have increased 50%. In 2020 one thousand feet of lumber cost \$300 and now it is \$1500.

I ask that you consider the proposed rate hike as excessive and that your duty as commissioners is to protect the taxpayers, instead of allowing huge coporations high profit. SAY NO!

Respectfully,

Cara Wilson
