Dear Public Service Commission,

I am a Florida Power rate payer in Sarasota.

The rate hike you are considering for Florida Power to expand a power source that is not safe for the environment does not make sense from a physical standpoint or from an environmental standpoint. Please do not rubberstamp this companies request for what many consider to be a poor investment decision paid for by so many other customers. Show your independence and turn down for services we do not need. We'll be watching to see if you're a watchdog for the public. It's your first name, PSC.
