**Subject:** TECO rate increase

Dear Commissioners:

I'm writing regarding the proposed TECO standard residential rate increase requested for 2022.

At first glance the increase doesn't seem like much until you factor the percentage of the increase TECO is requesting.

Their requests as follows seem unreasonable to me as a consumer:

Standard Residential Service  
Increase Request: 45%  
Energy & Demand Charge:  
1st 1000 kWh: 25%  
All Additional kWh 25%

A reasonable request I understand but not increases of 45%, 25% & 25%.

I hope you will consider the best interests of our community & summarily deny their request.

Hopefully, other residents will contact you regarding this matter & you will request TECO to resubmit a revised increase schedule.

Sincerely,  
Terry L Daniels

**Subject:** Rate Increase

Dear Public Service Commission:

There is not a single category of everyday life that hasn't jumped in cost in the past few months. I understand things have changed BUT the amount of increase for TECO is really over the top! They need to do their own belt tightening. A utility increase of this magnitude will critically change the well-being of a large population that is already struggling. Please significantly curtail the rate increase they are asking for.
