Good Morning, Ms. Cannon.

We will be placing your comments below in consumer correspondence in Docket No. 20210015, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover  
Commission Deputy Clerk I  
Florida Public Service Commission

Subject: Public Comment on Docket #20210015-EI

Dear Public Service Commission,

As a resident of Florida, I urge you to decline FPL's rate increase petition, which would create an unnecessary and excessive burden on utility customers at a time when many Floridians can least afford to pay more for their unavoidable daily expenses. Do not grant this rate increase. It (this rate increase) should not be put on the backs of seniors and households. Most of us are still just getting back on our feet. FPL already has a guaranteed rate of return on its investment and management services.

FPL is trying to charge customers like us for a range of projects we do not want or need. Why does the State of Florida need Gas power? FPL does not need to spend billions of our dollars on building redundant fossil fuel units, rebuilding an already-sufficient transmission system, and give their shareholders a raise.

Would you please not put FPL's desire to maximize profits over our need to power our homes affordably?

Thank you!

-----  
Como residente de Florida, le insto a que rechace la petición de aumento de tarifas de FPL, que crearía una carga innecesaria y excesiva para los clientes de servicios públicos en un momento en que muchos floridianos no pueden pagar más por sus gastos diarios.

FPL está tratando de cobrar a clientes como nosotros por una variedad de proyectos que no queremos ni necesitamos. FPL no necesita gastar miles de millones de dólares para construir unidades de combustibles fósiles redundantes, reconstruir un sistema de transmisión que ya es suficiente y dar un aumento a sus accionistas.

Por favor, no anteponga el deseo de FPL de maximizar las ganancias a nuestra necesidad de alimentar nuestros hogares de manera asequible.

¡Gracias!

Sincerely,  
Margaret Cannon
