thank you. I firmly oppose any fracking in the state of Florida or in the waters of the Gulf as it would irreparably damage the environment.
Catherine

Subject: Public Comment on Docket #20210034 - EI

Dear Public Service Commission,

As a resident of Florida, I urge you to decline TECO's rate increase petition, which would create an unnecessary and excessive burden on utility customers at a time when many Floridians can least afford to pay more for their unavoidable daily expenses.

I am COMPLETELY OPPOSED TO ANY FRACKING IN OUR WATERS. TECO is trying to charge customers like us for a range of projects we do not want or need. TECO does not need to spend billions of our dollars to build a new fossil fuel unit at the Big Bend powerplant that will pollute our environment for years to come.

Please do not put TECO's desire to maximize profits over our need to power our homes affordably.

Thank you!

Catherine Wallace

Sincerely,

Catherine Wallace
