SUBJECT: Docket #20200226-SU

To Whom It May Concern,

I am writing to you as a property owner on Don Pedro Island which is within the service area contained in the application from Environmental Utilities, LLC [EU] for central sewer. I object to EU's request to separate the certificate and rate-making proceedings and to the granting of a temporary waiver of Rule 25-30.033(1)(p) and (q). Given the inadequate information regarding the costs to the stakeholders involved with this project, the applicant's request for a waiver should be denied.

As with any development proposal, it is critical to have at the very least the estimated costs of the project including initial costs as well as the running costs which will be borne by the stakeholders.   I therefore strongly urge that EU's requested waiver of established protocols be denied.

Yours truly,

James D. Gordon, Jr.
