Subject: Docket #20200226-SU

I am a full time resident of Don Pedro Island having lived with here for the past twenty-four years.

I am writing about Docket #20200226-SU and asking you to deny the proposal and the Application of Original Certificate of Authorization. There is no need for sewers on our islands. There are no water quality tests that show that our septic are destroying the quality of our waters and environment.

The financial implications of this proposal will be a significant burden for me and for others living on fixed incomes. Please consider the needs of our residents and we don't need sewers!!

Thank you
