Placida, FL

Clerk of the Commission,

We are seasonal residents and do not rent our home, just like the majority of homes on Palm Island. We are only here about 20 to 30 days a year. We are asking asking the PSC to deny the Application for Original Certificate of Authorization requested by EU to be the private entity to install centralized sewers.

On the island majority of tanks are seasonal use only. There is not a large demand. There would be mass chaos trying to install such a complicated project on our barrier island accessible by ferry only. EU has not managed, nor done such work as required. As home owners, we are at his mercy of the quality of work being performed

and the rates he would have full authority to charge. I am not entirely opposed to sewers but I am opposed to EU.

1.
