RE: Docket #20200226-SU

Little Gasparilla island

I highly OBJECT to the proposal and application to add a central sewer system to Little Gasparilla Island.

1. WE do not want the natural habitat destroyed for this system installation.
2. This island and its houses are very rarely used. This is a weekend or vacation get away island. This island is not a normal full time populated community. There are a few full time residents on the island and most of them work on the main land. A full sewer system is NOT needed to meet the low volume needs of this island.
3. Most of the houses on the island have fewer than 10 days of visitors a year. My 5 neighbor houses are never used.
4. The cost passed on to the residents will be exorbitant. It will force many long time owners to have to sell.
5. This is proposal and application is being driven by Mr. Jack Boyer and the realtors selling houses. Self-serving to both groups.

WE DO NOT WANT THIS SEWER SYSTEM!

CAROLYN WILKINSON
