**Subject:** DOCKET #20200226-SU

Dear Commissioners:

**WE ARE FORMALLY REQUESTING THAT THE PSC DENY EU'S APPLICATION FOR WASTEWATER SERVICE**

Our names are Joseph and Olga Kroslak. As homeowners on Little Gasparilla Island, located at 9424 Rum Runner Rd, Lot #18, we would like to voice our **OBJECTION** for a certificate being granted to Environmental Utilities, LLC.

We are appealing to you with due respect because we feel that it is your responsibility as public servants to protect the interest of the taxpayers and homeowners, and not that of private enterprise.

There are many unanswered concerns. To name a few:

1. It's unacceptable to turn this project over to an LLC that has ZERO experience in installing and operating a sewer system of this magnitude. We believe Charlotte County should be the one in charge of this.
2. Undefined cost both for installation and monthly dues, as well as maintenance
3. There is NO NEED for this type of sewer system. Existing septic systems that people have are functional. If they weren't, the county would not be issuing new permits for new systems.
4. Potential environmental impact because of failed sewer system components.

5. Logistics to the island – we have no bridges – everything comes across by boat.
6. Environmental Utilities, LLC has not shown that they are financially capable to finance this project and they offer no financing to the homeowners.
7. This will be a significant financial burden to the homeowners.
8. Too much uncertainty about this whole project.

We thank you for your consideration.

Respectfully,

Joseph and Olga Kroslak
