Ref: Request to change water utility 679-W registered name from Citra Highlands Water System, LLC to Hash Utilities, LLC, a water utility in Marion County.

2 Pages Following
Page 1 - Section 25-30.039 Explanation
Page 2 - Notice to Customers

Thank you,

s/ 

Marshall T. Hash

Following Rule 25-30.039 Hash Utilities is requesting the name assigned to the utility be changed to Hash Utilities, LLC. The system name is Citra Highlands Water System, with FLDEP and when Hash Utilities submitted the application for the original franchise certificate the system name was used. This choice has caused various issues with the correspondences between the PSC, the customers, and the utility. The system name is Citra Highlands Water, but the company that operates it and reports to the PSC is named Hash Utilities. It was stated that we could request an administrative order to change the certificate name to Hash Utilities, LLC to help reduce the confusion.

The name, Hash Utilities, LLC is registered with Florida State Division of Corporations Document Number L08000113272.

The effective date of the change will be on the customer letter will be the April 1st, 2022. The 2022 Annual Report and 2021 RAF form will include the change for the PSC.

Please advise when to send Tariff Sheets?

Notice to customers of the Citra Highland Water System

The application submitted by Hash Utilities to the Florida Public Service Commission (PSC) included the name Citra Highlands Water System which has caused some confusion as the company that operates and submits the reports is Hash Utilities, LLC. We have submitted a name change to take effect on April 1st, 2022, for the PSC to recognize us as Hash Utilities, LLC with the communities served as Citra Highlands Subdivision.

You still live in Citra Highlands, everything will remain the same, and you are still connected to the Citra Highlands Water System. This only effects the way the Florida Public Service Commission communicates with us.

Nothing will change for our customers but if you have any questions, please let us know.

Thanks
Marshall Hash
