Subject: Docket #20200226-SU

Dear Commisioner LaRosa,

I am requesting that you deny the application to EU for waste water services on Don Pedro Island. There is no proven need to change from our current septic system. Periodic water tests have never shown any problems or signs of pollution

As an environmentalist, I would be greatly concerned if I thought there was a pollution problem. Also, as a member of our Island gopher tortoise team , I am concerned as to what impact this sewer system would have on their habitat.

This entire project is a boondoggle brought about by one Individual whose only interest is enriching himself without any accountability. Respectfully,

Gisela Ziegler-Allen
