CUSTOMER COMMENTS

I have had a home (180 Bocailla Drive) Palm Island - 1998 - I strongly disagree with the plan to push for the ~~that~~ Environmental Utilities, LLC - I feel that the system will be very a great financial problem out of pocket - I have to say that the only persons that will be happy with the proposal will be the owners of EU.

Has anyone thought about how well the present septic system has been working. If we get this new services I feel that we are dooming the Island life - then next next will be High Rises - large waste water management and waste water management - NO
