Subject: Docket #20200226-su

As owners of a home at 380 Kettle Harbor Drive on Palm Island we were pleased but not surprised to see that the PSC staff has recommended that the Commission deny the application for a wastewater certificate in the subject docket. The Commission should be commended for the thorough investigating process which has clearly shown that there is no public need nor demand for a mandatory sewer system on the island and given that the Commissions primary responsibility is to represent the public interest this application should clearly be denied.
