Thank you for your continued consideration in regards to the proposed sewer. I am extremely pleased to see the PSC staff carefully reviewed all documentation and feedback and is recommending denial based on a lack of need for service and that the application is not in the public interest. The pinpointed accuracy and clarity of their recommendation is heartening. We are beginning to put in our brand new septic system and while the cost is steep we are opting for extra measures to ensure we are good stewards of the island we feel so lucky to be able to call home. We now look to you to carry out this recommendation and ask that you deny the application.
