Subject: FPL request for 400 million infrastructure rate hike

Respected Commissioners,

I write to request you deny Florida Power and Lights most recent request for a rate hike to cover their project concerning infrastructure improvements. The rate hike initiated late last year have been extremely unsettling and costly for those of us in NW Florida. Quite a few of us have experienced record increases in our power bills. As a senior citizen living on a fixed income any increase is problematic for our budgets. We simply cannot afford another massive increase in our bill, especially with the inflation brought on by our incompetent federal government. Please, exercise some common sense and compassion for your fellow citizens. Thank you for your attention to this request
