**Subject:** FI Power and light new billing adjustments to FL residents

*Dear Gov. Desantis*

*I have solar panels on my roof. Installed 3 years ago, with an agreement to sell back unused power to FPL. My bills run \$10 per month for taxes. Now FPL want all residents who's bill are under \$25 to pay \$25.00 +.*

*My new bill is \$29.89*

*I installed these solar panels to reduce my electric bill! How is it legal for them to charge anyone who uses less the \$25.00 in electricity a flat fee of \$25.00 and taxes? It seems illegal and discriminatory.*

*Would you please look into this. This came from FI Public Service Commission. I should at least be Grandfathered in before this rule is started.*

*Thank you,*

RE: FPSC Inquiry 1397940C

Dear Mr. Porsavage:

The Governor's office forwarded a copy of your email regarding Florida Power & Light Company's (FPL) minimum billing charge to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the opportunity to respond directly to you.

The FPSC approved FPL's general base rate settlement agreement in Order No. PSC-2021-0446-S-EI, issued on December 2, 2021, in Docket No. 20210015-EI. The settlement agreement was entered into by FPL and various parties representing consumers, including the Office of the Public Counsel (OPC) who advocates on behalf of Florida consumers. The settlement agreement includes numerous provisions with regards to FPL's base rates through the end of 2025.

The agreement also contains a provision that will raise the minimum bill charge to \$25 for all residential and general service non-demand customers. The minimum bill provision went into effect in June 2022. FPL was to notify its customers of the new minimum bill in bill inserts 30 days prior to implementation.

The minimum monthly bill does not replace the existing customer charge; instead, FPL will only charge the minimum bill when a customer's total monthly bill does not exceed \$25, excluding any taxes or other additional charges.

FPL explained that the minimum bill provision was included in the settlement agreement to ensure that all residential and general service non-demand customers contribute towards fixed costs of maintaining the electric system, costs which exist as a result of serving even limited amounts of energy to customers. The Commission approved the settlement agreement as being in the public interest when taken as a whole, and providing a comprehensive and balanced resolution to FPL's original petition for a base rate increase that provides rate stability for FPL's customers.

We have added your concerns to our files as a protest to the FPL's Rate Case, docket 20210015.

If you have any questions, please contact Ms. Ellen Plendl at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Shonna McCray  
Regulatory Program Administrator  
Florida Public Service Commission
