Subject: FPL Bill 113% increase ?

PSC,

Please explain the reasoning behind the new minimum base bill on my electric bill? ,I just went from paying \$10 a month to \$30 a month just for the privilege of helping the grid and doing the right thing by the community, state and ecosystem."

If they need to raise more money for fixed services, they should apply it to everyone. What about the older, Incoincome restricted, and part-time residence? Because we didn't use much electricity, we are being charged more relative to someone living in a big house on the intracoastal.

When is this going to stop? The FPL rate have been increasing dramatically over the past few years. It seems like PSC voting members have been paid off by FPL and other power producers in the area.

Very dissatisfied full-time resident,

William Thomas
Fort Lauderdale, FL 33308
