Subject: Docket #20200226-SU

Just a belated thank you for not approving the sewer project on Palm Island. Given that our septic system is working just fine (and properly permitted) there was no need to replace it. Also the cost of installation and monthly fees are unnecessary for a service that we already have. The costs would have put a strain on us in addition to the cost increases of every other service (especially insurance - up 67%!.

Again thank you for your actions.

Fred & Susan Brown
