#### COMPLAINT INFORMATION

Complaint: Other Complaint against Florida Power & Light Company

##### Details:

There was a rate increase of over .03 cents per kWh this year (we use over 1000 kWh). Why was that approved? With inflation and the price of everything going up it is a huge detriment to people's budget. The other local power company, CHELCO, did not have this increase. Why was FPL authorized to buy out Gulf Power and charge us so much more. I'm paying approximately \$100 a month more than last year. I can't imagine what this would have done to me if I was on a fixed income. I read online that this rate hike was going to the FL Supreme Court. Is that true? If so, what was the outcome?

I did contact FPL, but they can't help since it was an approved increase.

Thank you for your time.
