To Whom It May Concern:

Please, please, please **do not allow Florida Power and Light another rate hike.** Enough is enough. People are hurting and our bank accounts are being drained. It's bad enough that gas and groceries are constantly going up, but homeowners insurance in Florida has doubled and sometimes tripled. Don't add to our burden by increasing the electricity bills with FPL.

Show the citizens of Florida that you do have our best interests at the forefront and do something about FPL's request for a rate increase. They should also be kept from doubling up on the billing that they are currently doing to families who have seen their power bills double, triple and quadruple from what they were last year. Nobody believes it is due to the hot summer. We have endured many hot summers over the years but the bills didn't go up to this extreme. FPL is stealing from their customers and this needs to be investigated and stopped.

Sincerely,

Linda J. Grant
