Commissioner Art Graham,

Re: 20220067-GU

I am writing as a concerned Florida resident (Escambia County) and a natural gas customer. I received notification that my natural gas supplier intends to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida, especially in Escambia County where you recently approved a large rate increase for FPL. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reconsider this rate increase at this time.

I am writing as a concerned Florida resident and a natural gas customer. I received notification that my natural gas supplier intends to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills. While I understand your need to consolidate your rates, so they are more uniform across the areas you serve, I do not think it is appropriate for your customers to receive a rate increase because of an internal action you need to take.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for someone like me who is on a fixed and limited income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reconsider this rate increase at this time.

At 80 years old, I live on a fixed income and do not receive any raises. Raises in costs hit us, the retired, especially hard. Please do not raise our rates.
