Subject: Re: Florida Public

Kelly, I was reading through the information for the docket tonight and there was one very interesting email.. If they already have set an agreement for bills in June 2022, why are they now talking about almost doubling the bills for residents in the meeting tonight. The one mentioned below was supposed to cover them through 2025. Now they want more money?

"The agreement also contains a provision that will raise the minimum bill charge to \$25. for all residential and general service non-demand customers? The minimum bill provision went into effect in June 2022. FPL was to notify its customers of the new minimum bill in bill inserts 30 days prior to implementation?"

" The Florida Public Service Commission approved Florida Power & Light Company's general base rate settlement agreement in Order No. PSC-2021-0446-S-EI, issued on December 2, 2021, in Docket No. 20210015-EI. The settlement agreement was entered into by FPL and various parties representing consumers including the Office of the Public Counsel (OPC) who advocates on behalf of Florida Consumers?. The settlement agreement includes numerous provisions with regards to FPL's base rates through the end of 2025.
"

Subject: Florida Public

If I wanted to sign in to the virtual service hearings just to listen to the reasons and the speakers, but not speak myself, can I do that?

I am retired and to have my gas bill almost double in a time when the Inflation is killing us, I want to know the reason? This is a terrible time to raise prices especially on people with a fixed income. Thanks Bonnie Radke, New Smyrna Beach.
