Florida Public Service Commission Clerk,

Re: 20220067-GU

I am a Broward natural gas Cust Omer and my husband and I (79 &75) live only on our Social Security and cannot afford a single penny more in increases of ANY KIND. So far you have not been very responsive to our pleas for increased regulations of utilities but we are desperately hoping that you will consider the situation that so many of us are in at this time.

I am writing as a concerned Florida resident and a natural gas customer. I received notification that my natural gas supplier intends to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reconsider this rate increase at this time.

PLEASE!!
