**COMPLAINT INFORMATION**

Complaint: Other Complaint against Tampa Electric Company

Details:

Teco should be DENIED request for increased One reason is if they can donate 5millions dollars to USF they're not in need of more of increase from consumers Teco have already secretly increased their customers rate without permission Consumers have already being baring increased of 150 to 200dollar from April to now The average consumers electric bill now is 300 to 400dollars monthly Consumers with fix incomes cannot substain it plus homeowners already have increases with homeowners insurance etc but I do NOT understand how a company like Teco is asking for increased when they havent done anything different but added on more cist for same services Knowingit will hurt Consumers at this time Again we a consumers watch them donatinig millions of dollars instead of investing it back into the company like they say they want to do to get the increased Again it should be DENIED
