**Subject:** Docket No. 20220001-EI: Reject the new electric rate hikes!

Florida Public Service Commission Clerk,

Docket No. 20220001-EI

Please Please Please don't approve of an increase, we bought our home in Florida the last quarter of 2019. We made sure to do all of our homework before buying that we could indeed afford to live in FL. Well as you well know Covid hit a short few months after that and since that, the election, the war, and the cost of EVERYTHING has increased from groceries to taxes. We nor anyone I know or have spoke with knows how much longer we can hang on by

the thread we're (paychecks, the only thing that hasn't increased) left with. Please realize we like most, CANNOT afford an electric increase!!

Thanks for your time, and hopefully rejecting this increase, I appreciate it!

I am an electricity customer in Florida. I received notification that you will soon be considering proposals from FPL, Duke and Tampa Electric to increase my electricity rates next year.

This is outrageous. These companies have made windfall profits over the last few years, and yet each time they go crying to you, you have approved their rate increases. No amount is too high, apparently. When will you stand up for your own mission of setting fair rates for consumers in Florida?

Another electricity rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases.
