**To:** Office of Commissioner Passidomo  
**Subject:** Docket No. 20220001-EI: Reject the new electric rate hikes!

Commissioner Gabriella Passidomo,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to reject these proposals and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases at this time.

How many rate increases are you going to approve? When is enough enough? When will you stand up for your own mission of setting fair rates?

**To:** Office of Commissioner Passidomo  
**Subject:** Docket No. 20220001-EI: Reject the new electric rate hikes!

Commissioner Gabriella Passidomo,

Docket No. 20220001-EI

Please Please Please don't approve of an increase, we bought our home in Florida the last quarter of 2019. We made sure to do all of our homework before buying that we could indeed afford to live in FL. Well as you well know Covid hit a short few months after that and since that, the election, the war, and the cost of EVERYTHING has increased from groceries to taxes. We nor anyone I know or have spoke with knows how much longer we can hang on by the thread we're (paychecks, the only thing that hasn't increased) left with. Please realize we like most, CANNOT afford an electric increase!!

Thanks for your time, and hopefully rejecting this increase, I appreciate it!

I am an electricity customer in Florida. I received notification that you will soon be considering proposals from FPL, Duke and Tampa Electric to increase my electricity rates next year.

This is outrageous. These companies have made windfall profits over the last few years, and yet each time they go crying to you, you have approved their rate increases. No amount is too high, apparently. When will you stand up for your own mission of setting fair rates for consumers in Florida?

Another electricity rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases.

**To:** Office of Commissioner Passidomo  
**Subject:** Docket No. 20220001-EI: Reject the new electric rate hikes!

Commissioner Gabriella Passidomo,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to reject these proposals and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases at this time.

How many rate increases are you going to approve? When is enough enough? When will you stand up for your own mission of setting fair rates?

I am a retired Senior Citizen living on my Social Security check. My Electric Bill went up over \$20.00 in the last month!! My groceries used to cost \$60. to \$80. Dollars, now cost me \$100. To \$115. Dollars!! Where am I going to get the extra money?!!!

The utilities Company make big profits, they don't have to make More off the backs of Retired people!!!!

I urge you to reject these rate increases at this time.

How many rate increases are you going to approve? When is enough enough? When will you stand up for your own mission of setting fair rates?
