Subject: Docket No. 20220001-EI: No new electric rate hikes!

Florida Public Service Commission Clerk,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

Your job is to regulate utility companies - for fair and reasonable rates - not immense profits at the expense of middle class and poor people who are hurting enough. Please show that

you are not corrupt in rubber stamping huge rate increases. Florida Power & Light, Duke Energy Florida and Tampa Electric Company have already made immense profits with previous rate increases.

I urge you to reject these outrageous rate increases at this time.

Thank you.

Yvonne King
