**To:** Office of Chairman Fay  
**Subject:** Docket No. 20220001-EI: Reject the new electric rate hikes!

Commissioner Andrew Fay,

Docket No. 20220001-EI

I am an electricity customer in Florida. I received notification that you will soon be considering proposals from FPL, Duke and Tampa Electric to increase my electricity rates next year.

This is outrageous. These companies have made windfall profits over the last few years, and yet each time they go crying to you, you have approved their rate increases. No amount is too high, apparently. When will you stand up for your own mission of setting fair rates for consumers in Florida?

Another electricity rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

We seniors are in real financial trouble with food, gas, utilities etc. I just started a small business as the food prices are killing us but I cannot make enough to cover all of this working at a booth in a farmers market on Sunday so it is time you stand up for us Seniors and kill these large increases.

I urge you to reject these rate increases.

Ruth Baker

We are all inundated with price increases on everything.

I urge you to reject these rate increases at this time.

How many rate increases are you going to approve? When is enough enough? When will you stand up for your own mission of setting fair rates?

I live on a fixed income of under \$1,000 a month since my husband and son died, I'm 100% disabled on oxygen 24/7. My electric bill is already over \$200.00 a month. I can barely get by now I dont know what will happen to me with another increase. Just trying to survive. We've already had one increase isn't that enough for awhile.
