**Cc:** Office of Chairman Fay; Office of Commissioner La Rosa; Office of Commissioner Graham; Office of Commissioner Clark; Office of Commissioner Passidomo  
**Subject:** Duke Energy

Docket No. 20220001-EI

I am a customer of Duke Energy Florida. I understand that the Florida Public Service Commission (FPSC) is considering a request by Duke Energy Florida to increase its rate for 2023 due to “volatile” fluctuations of natural gas prices.

Duke's electricity rate per KWH is currently 29% higher than FP&L (see below) and Duke is now asking for another 15% for 2023, the highest increase of the three monopoly power companies seeking a rate increase. Duke already charges more per KWH than the other two, large investor-owned electric utility companies in Florida (source: Sept. 2022 issue of Florida Trend Magazine):

Duke Energy - \$201.32/1,500 KWH  
FP&L - \$156.81/1,500 KWH  
Tampa Electric – \$175.17/1,500 KWH

Non-investor owned near me:

OUC - \$169.25/1,500 KWH  
Kissimmee - \$173.59/1,500 KWH

The FPSC Commissioners need to be asking, "How can Duke Energy justify asking for even more money from their captive customers when they already charge the highest rate compared to all the other major electricity utilities in Florida?" Rather, the Commissioners should tell this public monopoly utility to look harder for cost savings and new efficiencies, and reduce their profit margin rather than asking for even more money from their captive customers.

I strongly urge the FPSC Commissiones to reject this rate increase request.

Sincerely,  
Janine S.

**Sent:** Tuesday, September 20, 2022 8:51 AM  
**To:** Office of Chairman Fay  
**Subject:** Docket No. 20220001-EI: Reject the new electric rate hikes!

Commissioner Andrew Fay,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to reject these proposals and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases at this time.

How many rate increases are you going to approve? When is enough enough? When will you stand up for your own mission of setting fair rates?

**Sent:** Tuesday, September 20, 2022 8:34 AM  
**To:** Office of Chairman Fay  
**Subject:** Docket No. 20220001-EI: Reject the new electric rate hikes!

Commissioner Andrew Fay,

Docket No. 20220001-EI

I and my wife are retired and on fixed income. We are concerned about another rate hike for our electricity which is now provided by Florida Power and Light (formerly by Gulf Power). I urge you to vote against this proposed rate increase. We simply cannot afford it now, especially given the sad state of the US economy. Prices on everything have increased -- we recently had to replace our roof and the price was DOUBLE what we paid a few years ago.

It's time to take a stand in favor of Florida's consumers.
