Subject: Docket No. 20220001-EI: No new electric rate hikes!

Florida Public Service Commission Clerk,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be

on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these outrageous rate increases at this time.

I installed solar panels, use NO ELECTRICITY from the grid and STILL PAY A BASE RATE OF \$25.00 plus taxes and fees to equal more than \$36.00 per month! I will soon retire and be on a fixed income - paying even more for something I do not even use is unconscionable. PLEASE, PLEASE do not raise our rates when FPL HAS HUGE PROFITS ALREADY!

PLEASE THINK OF PEOPLE ALREADY STRUGGLING FINANCIALLY WITH INFLATION AND ALREADY HIGH UTILITY PRICES which provide HUGE PROFITS to utility companies. Do they really need mega billions in revenues? What happened to considering the PUBLIC SERVICE?
