Subject: Docket No. 20220001-EI: Reject the new electric rate hikes!

Chairman Gary Clark,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to reject these proposals and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases at this time.

How many rate increases are you going to approve? When is enough enough? When will you stand up for your own mission of setting fair rates?

Please stand up for us. ~ David

Chairman Gary Clark,

Docket No. 20220001-EI

I am an electricity customer in Florida. I received notification that you will soon be considering proposals from FPL, Duke and Tampa Electric to increase my electricity rates next year.

This is outrageous. These companies have made windfall profits over the last few years, and yet each time they go crying to you, you have approved their rate increases. No amount is too high, apparently. When will you stand up for your own mission of setting fair rates for consumers in Florida?

Another electricity rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases.

Subject: Docket No. 20220001-EI: No new electric rate hikes!

Chairman Gary Clark,

Docket No. 20220001-EI

After documented RECORD PROFITS in 2020 and 2021, Florida's utility companies do NOT need to increase rates charged to customers.

I am writing as a concerned Florida resident and a electricity customer. I am urging you to rethink the request and NOT increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these outrageous rate increases that are demonstrated (back to those record high profits) to be unwarranted.

My husband, the breadwinner in our household, will be laid off from thanksgiving to the new year. We live within our means and have no debts but with everything happening lately we are quite possibly not going to be able to pay our bills and feed our children. Please don't allow a rate increase for our electricity. They've already raised it once in the last two years and we can not afford any more expenses.

I urge you to reject these rate increases! Think of the individuals you are affecting. Not just the big corporations!
