Subject: Docket No. 20220001-EI: Reject the new electric rate hikes!

Chairman Gary Clark,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to reject these proposals and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases at this time.

How many rate increases are you going to approve? When is enough enough? When will you stand up for your own mission of setting fair rates?

I installed solar panels, use NO ELECTRICITY from the grid and STILL PAY A BASE RATE OF \$25.00 plus taxes and fees to equal more than \$36.00 per month! I will soon retire and be on a fixed income - paying even more for something I do not even use is unconscionable. PLEASE, PLEASE do not raise our rates when FPL HAS HUGE PROFITS ALREADY!

PLEASE THINK OF PEOPLE ALREADY STRUGGLING FINANCIALLY WITH INFLATION AND ALREADY HIGH UTILITY PRICES which provide HUGE PROFITS to utility companies. Do they really need mega billions in revenues? What happened to considering the PUBLIC SERVICE?

Chairman Gary Clark,

Docket No. 20220001-EI

I am an electricity customer in Florida. I received notification that you will soon be considering proposals from FPL, Duke and Tampa Electric to increase my electricity rates next year.

This is outrageous. These companies have made windfall profits over the last few years, and yet each time they go crying to you, you have approved their rate increases. No amount is too high, apparently. When will you stand up for your own mission of setting fair rates for consumers in Florida?

Another electricity rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases.
